

ST2720S GUN 1/2"F & ST3100 OUTLET

PRODUCT DESCRIPTION

The Suttner ST2720 range of stainless steel guns are designed for high flows and medium to high pressures. The ST2720 guns have a PEEK valve cone which enables them to be used in low pressure applications. The cases are made from food safe impact resistant plastics in accordance to Regulation (EC) No. 1935/2004. These guns are also fitted with the LTF system, which means the trigger is 40% easier to pull and 90% easier to hold when in operation, compared to standard wash guns
